7 Types of Prompts

1 **Informational**
Gather facts or summaries.

2 **Instructional**
Step-by-step tasks.

3 **Creative**
Generate imaginative ideas or content.

4 **Role Assignment**
Simulate a specific role of perspective.

5 **Contextual**
Provide background for tailored responses.

6 **Chain-of-thought**
Encourage step-by-step reasoning for complex tasks.

7 **Iterative**
Refine responses with follow-up questions or feedback.

Elements of a Good Prompt

DIGITAL EDUCATION COUNCIL

1

Clarity

Clear prompts ensure the AI understands exactly what you're asking.

2

Specificity

Specific prompts narrow down the scope, ensuring the AI provides a focussed and accurate response.

3

Context

Adding context improves the AI's understanding of your needs, making the response more relevant.

4

Instructions for Formatting

Clearly stating how you want the output formatted helps you get usable responses.

5

Examples in the Prompt

Providing examples gives the AI a reference point, improving the desired relevance and quality of the output.

6

Iteration and Refinement

Even the best prompts might need tweaking. Iterative refinement helps you achieve the desired result.
